*Maximum nominal value in open positions for USDCLP is 1 million EUR

Observações:

1. No caso da plataforma xStation, o valor da margem calculada para posições de cobertura corresponde ao valor da margem calculada para posições abertas de compra ou venda, consoante o que for maior.
2. O valor nominal da carteira, tal como especificado nas CGV, aplica-se a todas as posições abertas detidas pelo Cliente em todas as suas contas de negociação, exceto posições em CFDs sobre ações, CFDs sobre ETF e ações sintéticas.

3. Os valores nominais das posições individuais, que constituem a carteira do Cliente, são convertidos para euros com base nas taxas da XTB a intervalos regulares ao longo da vigência de cada posição.
4. O Cliente pode escolher o grupo de Valor Nominal da Carteira conforme especificado na tabela acima. Se a abertura de novas posições resultar na ultrapassagem do Valor Nominal Máximo da Carteira, tais posições não serão abertas.
5. O valor nominal para posições cobertas é o valor nominal da posição de compra ou de venda, consoante o que for maior.
6. Se houver uma suspeita justificada de que as Contas são geridas por uma pessoa ou por um grupo de pessoas ligadas entre si, estas serão atribuídas ao mesmo grupo de Valor Nominal
7. No caso da plataforma xStation, a alteração do grupo de Valor Nominal da Carteira, que implica uma alteração dos requisitos de margem, afetará apenas as posições recém-abertas, e a margem cobrada para posições abertas anteriormente permanecerá inalterada.
8. Se o rácio percentual entre o capital próprio e a margem (o chamado Nível de Margem) for inferior a 100% e houver pelo menos uma Posição Aberta na Conta do Cliente, não é
9. Margens cobradas na abertura de transações relativas a CFDs sobre ações e CFDs sobre ETF:

20%
