ETF CFDs US	0,00 % of the transaction value, minimum 0 USD	0.30%	30.00%	0.5% ⁵⁾

- 1) the fee shall be converted to the currency in which Account is kept according to XTB Exchange Rate at the moment of transaction execution.
- 2) the markup is included in the Spread presented on an Investment Account. Half of the markup value (0.15%) is deducted from the bid price and the other half is added to the ask price.
- 3) XTB is booking on the Client's Account the equivalent of the dividend reduced by the fee.
- 4) Fee resulted from the Italian FTT tax is calculated on the next working day after the day of the transaction execution.
- 5) All currency conversions of the result of transactions on Derivatives Shares CFDs and ETF CFDs and Corporate Actions in the Trading Account are subject to a mark-up of 0.5% of the XTB Exchange Rate. The fee is charged from the Client's Account at the time of closing the Transaction and realization of Corporate Actions.

3. CFD contracts on currencies, indices, commodities and cryptocurrencies

Currency conversion fee	
Currency conversion of the transaction profit or loss	0.5% ¹⁾

¹⁾ All currency conversions of the transaction result for CFD instruments on currencies, indices, commodities, and cryptocurrencies in the Client's account are subject to a mark-up of 0.5%, which is included in the XTB exchange rate. The currency conversion fee affects the Transaction Result, and it is settled at the time the Transaction is closed.

4. General comments

Other costs connected with Transactions in XTB e.g. Spreads, swap points, overnight financing or other commissions and fees, which the Client shall pay to XTB are described in others Condition Tables and Swaps points/overnight financing table available on XTB's Website.

5. Table of XTB Exchange Rates

In order to convert specific positions into the currency of client's account, in each Client's Transaction, XTB uses bid and ask rates, from the Client's Standard Account.

If XTB does not quote a pair allowing to directly convert one of the Transaction parameters to the currency of the Investment Account, the conversion is done by converting the parameter into USD and then into the currency of the Investment Account.

XTB informs in the Fees and commissions table about additional fees that may arise.

The tables below present the rate, which is used to convert a given parameter of a Transaction into the currency of the Client's Investment Account.

	CFD Instruments
Margin	$(\text{bid rate}^1 + \text{ask rate}^2) / 2$
Transaction result	For CFD instruments: Bid rate ³ — in the case of settling a transaction in the account's currency that reflects the process of the Client selling the instrument's currency to receive the payment (profitable transaction), Ask rate ⁴ — in the case of settling a transaction in the account currency that reflects the process of the Client purchasing the instrument's currency to cover the liability (loss-making transaction); If a direct conversion rate for CFD Transactions does not exist, the result will be firstly converted into USD at the bid rate for buy positions and at the ask rate for sell positions. Then, into currency of the Investment Account with the bid rate for buy positions and the ask rate for sell positions.
Commission	Ask rate

Swap points value and position rollover value	(bid rate + ask rate)/2
FTT, other fees/taxes	The official ECB exchange rate from the day before the FTT tax is applied. If the aforementioned rate is unavailable, the NBP exchange rate from the day before the FTT tax is applied.
Corporate Actions (dividends, equivalents of dividend, fee on equivalent of dividend, equivalent of subscription rights, etc.)	Bid rate ³ – for positive cash flows Ask rate ⁴ - for negative cash flows
Nominal value of purchase/sale	N/A

- 1) Price for the purchase transaction.
- 2) Price for the sale transaction.
- 3) XTB Exchange Rate expressed as bid – mid * mark-up⁵
- 4) XTB Exchange Rate expressed as ask + mid * mark-up⁵
- 5) The amount of the mark-up has been specified in section 3 and 4. – Currency conversion fee.

6. Table of Commission and Fees for Options

Group	Part of the premium for the mark-up on the execution price	Part of the premium for currency conversion mark-up
Options (all underlying assets)	0.25%	0%

The total premium consists of three elements: the raw premium value calculated using the raw exercise price, the markup value on the exercise price, and the markup value applied to the conversion rate

7. Currency Exchange

The Currency Exchange Rate is based on Standard offer prices. The Currency Exchange Rate is refreshed no more frequently than once per 1 second.

Outside of FX instrument trading hours used for currency conversion, higher conversion fees apply on weekends and holidays as indicated in Section 1.

General. Market opening refers to the first price after trading opens.

If XTB does not quote a pair allowing for direct exchange, conversion is done by first converting to USD, and then to the Account Currency.

Currency Exchange	Bid price of exchange rate
-------------------	----------------------------

Example:

- 1) A client has a EUR account and exchanges 1000 EUR to another account held in USD. The current exchange rate (bid / ask):

EURUSD: (**1.08215** / 1.08224)

Value of 1000 EUR in USD currency is equal to 1082.15 USD = 1000 * **1.08215**

Moreover, a commission will be charged according to the information provided in Section 1. General, which is 0.5% or 0.8% depending on the exchange time.

- Value of charged commission: 5 EUR = (1000 EUR * 0.5% = 5 EUR)

or

- Value of charged commission: 8 EUR = (1000 EUR * 0.8% = 8 EUR)

- 1) A client has a USD account and exchanges 1000 USD to another account held in EUR. The current exchange rate (bid / ask):

EURUSD: (1.08215 / 1.08224)

→ USDEUR = ($\frac{1}{\text{EURUSD}}$): (**0.92401** / 0.92409)

Value of 1000 USD in EUR currency is equal to 924.01 EUR = 1000 * **0.92401**

Moreover, a commission will be charged according to the information provided in Section 1. General, which is 0.5% or 0.8% depending on the exchange time.

- Value of charged commission: 5 USD = (1000 USD * 0.5% = 5 USD)

or

- Value of charged commission: 8 USD = (1000 USD * 0.8% = 8 USD)

Additionally, service is provided only by making a transfer ordered by client between trading accounts held by client and only in currencies of these accounts. XTB provides currency exchange services only when it is related to provision of another brokerage service. Currency exchange service provided by XTB does not constitute a currency exchange activity. Currency exchange service should only be for execution of specific orders, such as the purchase of Financial Instruments in a currency other than funds deposited by client.
