## Commenti:

1. Nel caso della piattaforma xStation, il valore del margine calcolato per le posizioni in hedge è il valore del margine calcolato per le posizioni aperte di buy o di sell, a seconda di quale sia maggiore.
2. Il Valore Nominale del Portafoglio, come specificato nelle CG, si applica a tutte le posizioni aperte detenute dal Cliente in tutti i suoi Conti di Trading, eccetto le posizioni in Azioni CFD e CFD su ETF.
3. I valori nominali delle singole posizioni, che costituiscono il portafoglio del Cliente, vengono convertiti in euro in base ai tassi XTB a intervalli regolari per l'intero periodo in cui ciascuna posizione e' aperta.
4. Il Cliente può scegliere il gruppo di Valore Nominale del Portafoglio come specificato nella tabella sopra riportata. Se l'apertura di nuove posizioni comporta il superamento del Valore Nominale Massimo del Portafoglio, tali posizioni non verranno aperte.
5. Il valore nominale delle posizioni in hedge è il valore nominale della posizione buy o sell, a seconda di quale sia maggiore.
6. Se sussiste il fondato sospetto che i conti siano gestiti da una sola persona o da un gruppo di persone collegate tra loro, essi saranno assegnati allo stesso gruppo di Valore nominale del portafoglio e avranno requisiti di margine corrispondenti al gruppo menzionato.
7. Nel caso della piattaforma xStation, la modifica del gruppo di Valore Nominale del Portafoglio, che comporta una modifica dei requisiti di Margine, avrà effetto solo sulle posizioni di nuova apertura, mentre il Margine raccolto per le posizioni aperte in precedenza rimarrà invariato.
8. Se il rapporto percentuale tra il Congruo valore e Margine (il cosiddetto Livello del Margine) è inferiore al 100% e vi è almeno una Posizione Aperta nel Conto del Cliente, non è possibile aprire un nuovo ordine sulla Piattaforma di Trading xStation.
9. Margini raccolti all'apertura di operazioni relative ad Azioni CFD e CFD su ETF:

20%
