¹⁾ The fee shall be converted to the currency in which Account is kept according to XTB Exchange Rate at the moment of transaction execution.

²⁾ The markup is included in the Spread presented on an Investment Account. Half of the markup value (0.15%) is deducted from the bid price and the other half is added to the ask price.

³⁾ XTB is booking on the Client's Account the equivalent of the dividend reduced by the fee.

⁴⁾ The Italian FTT tax is calculated on the next working day after the day of the transaction execution.

⁵⁾ All currency conversions of the result of transactions on Stock CFDs and ETF CFDs and Corporate Actions in the Trading Account are subject to a mark-up of 0.5% of the XTB Exchange Rate. The fee is charged from the Client's Account at the time of closing the Transaction and realization of Corporate Actions.

3. Table Commission of Fees for CFD contracts on currencies, indices and commodities

Currency conversion fee	
Currency conversion of the transaction profit or loss	0.5%

¹⁾ All currency conversions of the transaction result for CFD instruments on currencies, indices and commodities in the Client's account are subject to a mark-up of 0.5%, which is included in the XTB exchange rate. The currency conversion fee affects the Transaction Result, and it is settled at the time the Transaction is closed.

4. Table of XTB Exchange Rates

In order to convert specific positions into the currency of client's account, in each Client's Transaction, XTB uses bid and ask rates from the Client's Standard Account. If XTB does not quote a pair allowing to directly convert one of the Transaction parameters to the currency of the Account, the conversion is done by converting the parameter into USD and then into the currency of the Client's Account.

XTB informs in the Fees and commissions table about additional fees that may arise.

The tables below present the rate, which is used to convert a given parameter of a Transaction into the currency of the Client's Account.

	CFD INSTRUMENTS
Margin	$((bid\ rate^*) + ask\ rate^{**}) / 2$
Transaction result	For Forex Transactions: Bid rate – for the purchase transactions, Ask rate – for the sale transactions; For other CFDs: Bid rate – for Financial Instruments, for which a direct conversion rate exists; If a direct conversion rate for CFD Transactions does not exist, the result will be firstly converted into USD at the bid rate for buy positions and at the ask rate for sell positions. Then, into currency of the Account with the bid rate for buy positions and the ask rate for sell positions.
Commission	Ask rate
Swap Points value and position rollover value	$(bid\ rate + ask\ rate) / 2$
FTT, other fees / taxes	According to the official fixing rate of the National Bank of Poland of the previous day
Corporate Actions (dividends, equivalents of dividend, fee on equivalent of dividend, equivalent of subscription rights, etc.)	Bid rate + 0,5%*mid
Nominal value of purchase/sale	N/A

* Price for the purchase transaction.

** Price for the sale transaction.

5. Table of Commission and Fees for Organized Market Instruments (OMI)

- **Commission transactions**

Commission for Transaction on OMI (Stocks, ETFs) ¹		Fee for currency conversion ²
Tariff valid until reaching turnover of 100,000 EUR within a calendar month on all registered accounts	Tariff valid for any trade after exceeding 100,000 EUR of cumulative turnover for all registered accounts within a calendar month ³	
0%, minimum 0 EUR	0.2%, minimum 10 EUR	0.5%

¹ The fee shall be converted to the currency in which account is kept according to XTB Exchange Rate at the moment of transaction execution.

² All currency conversions related to trading and corporate actions on OMI are subject to 0.5% mark-up on top of XTB Exchange Rate as defined in the GTC.

Example:

Opening long position in Stocks and ETFs (OMI) listed in EUR on USD account will be subject to currency conversion according to XTB Exchange Rate, based on following pattern: ask EUR/USD +0,5%*mid. Short position will be subject to currency conversion based on bid EUR/USD -0,5%*mid.

Opening long position in Stocks and ETFs (OMI) listed in USD on EUR account will be subject to currency conversion according to XTB Exchange Rate, based on following pattern: bid EUR/USD -0.5%*mid. Short position will be subject to currency conversion based on ask EUR/USD +0.5%*mid.

³ Example: Let's consider a scenario when a client trades 5 times within a month. Accumulated value of the first 4 transactions is equal to 95,000 EUR. Nominal value of the fifth transaction (purchase of shares listed in Germany) is 7,500 EUR. The commission charged in this case will equal the minimum amount of 10 EUR ($[2,500 \text{ EUR} \times 0.2\%] < 10 \text{ EUR}$). To convert the order nominal value to EUR, XTB uses market rates presented on the xStation trading platform. If XTB quotes a given EUR conversion rate, then such conversion takes place directly at the mid $((\text{bid} + \text{ask})/2)$ rate. If the direct rate is not available on the trading platform, XTB will first convert the nominal value to USD and then to EUR. In both steps, XTB will use the mid rate of quotations.

- **Other fees¹**

Fee type	Rate
Outgoing OMI transfer fee from trading account (including stocks delisted from a regulated market)	Securities listed in Spain: 0.10% of securities value per ISIN (minimum 100 EUR) Other markets: 25 EUR/ 25 USD/ 650 CZK/ 8,500 HUF/ 120 RON per ISIN ²
OMI transfer between different trading accounts in xStation	0.5% of purchase transaction value per ISIN (minimum 25 EUR/ 25 USD/ 100 PLN / 650 CZK/ 8,500 HUF/ 120 RON ²)
Certificate of deposit	minimum 250 EUR

Fee for each preparation confirmation of dividend payment	10 EUR/ 10 USD/ 40 PLN/ 260 CZK/ 3,400 HUF/ 50 RON
Custody fee	0.2% per annum, minimum 10 EUR per calendar month for the excess of average daily portfolio value above 250,000 EUR ³

¹ The fee shall be converted to the currency in which account is kept according to XTB Exchange Rate at the moment of transaction execution.

² Minimum fee is charged on the account from which securities will be transferred (account's currency determines fee currency).

³ Example: assuming average daily portfolio value for a month equals 300,000 EUR a minimum fee of 10 EUR will be charged ($[50,000 \text{ EUR} \times 0.2\% \times 1/12] < 10 \text{ EUR}$).

6. Fees and taxes imposed by local authorities

MARKET	Fee/Tax ¹	Rate
France	French Financial Transactions Tax (FTT)	0.3% of the value of acquired shares ²
Spain	Spanish Financial Transactions Tax (FTT)	0.2% of the value of acquired shares ³
USA	Sec Fee	0.00221% of sold securities value
Great Britain	Stamp Duty Reserve Tax (for securities issued by entities headquartered in Ireland)	1% of the purchase transaction value
	Stamp Duty Reserve Tax (for securities issued by entities headquartered outside of Ireland)	0,5% of the purchase transaction value
	PTM Levy	1 GBP per transaction if the total consideration of the relevant trade is greater than £10,000 ⁴
Italy	Italian Financial Transactions Tax (FTT)	0.1% of the value of acquired shares ⁵

¹ Taxes are deducted the next working day after the day when the Transaction was executed.

² FTT applies to net acquisition of shares of companies with market capitalization exceeding 1 billion EUR, list of listed companies affected can be found here: <http://bofip.impots.gouv.fr/bofip/9789-PGP>.

³ FTT applies to net acquisition of shares of companies with market capitalization exceeding 1 billion EUR, list of listed companies affected can be found here: https://www.agenciatributaria.es/static_files/AEAT/Contenidos_Comunes/La_Agencia_Tributaria/Modelos_y_formularios/Declaraciones/Resto_de_modelos/604/Relacion_Sociedades_web.pdf.

⁴ The PTM Levy is payable on trades in securities of companies which are incorporated in the United Kingdom, the Channel Islands or the Isle of Man and whose shares are admitted to trading on a UK regulated market or multilateral trading facility.

⁵ The tax does not apply to net acquisition of shares of companies with a capitalisation of less than 500 mIn EUR.

7. Withholding taxes

XTB Clients' stocks are registered on the omnibus account kept by the Depository. In the case of dividend payment, the withholding tax taxpayer is the bank designated for a given market by the XTB Depository. The taxpayer has no knowledge of the identity of XTB clients (beneficial owners), and thus their tax residence. For jurisdictions where applicable double tax treaties might apply, the taxpayer, unable to identify the tax residence of the owner of stocks, may not apply the provisions of these double tax treaties. In such a case, the taxpayer is obliged to apply the highest withholding tax rate provided for by local regulations (e.g. 30% for shares listed in the US, 35% for shares listed in the Czech Republic, 35% for shares listed in Portugal).
