6. PRICES

General Terms

6.1. Unless stated otherwise the Company shall systematically quote on Trading Days the prices of the Financial Instruments on the basis of prices of corresponding Underlying Instruments. These prices are quoted on the Interbank Market or other financial market on which the trading volume of the above-mentioned Underlying Instruments is the highest and most liquid. Clients shall conclude Transactions at the prices available in the transaction system taking into account the liquidity, available for all the Clients, assigned to each Quotation.

6.2. The Company refreshes the book of offers each time a price appearing in the transaction system changes. The Client hereby acknowledges that each Transaction the Client concludes, reduces the liquidity available for a particular Quotation and, if the entire liquidity available for a given bid price or ask price is used in full, the subsequent bid price or ask price with available liquidity in the orders sheet shall become the binding Financial Instrument's Price to which the provisions of clause 18.3 shall not apply.

6.3. Transaction prices shall be quoted on ongoing basis on the Accounts on the basis of current prices made available by the following institutions: (a) banks; (b) investment firms and brokers; (c) underlying instruments markets and derivatives markets; (d) prestigious information agencies.

6.4. The Company shall use its best efforts to ensure that Transactions prices do not differ materially from the prices of Underlying Instruments made available in real time by the Reference Institutions. On the Client's demand, the Company may disclose to the Client the name of the particular institution, which price was the basis for determination of the Financial Instrument's Price, on which the Transaction was executed.

6.5. The price of a Financial Instrument determined in the manner specified in this chapter shall be always quoted by the Company two-way- showing simultaneously a bid price and a corresponding ask price. The difference between the bid and the ask price shall constitute the Spread for the particular Financial Instrument.

6.6. The decision to select the type of the Transaction and the price at which the Client places an Order to execute the Transaction shall be an autonomous decision of the Client made on his/her own responsibility and at his/her sole discretion, unless: (a) The Company exercises the rights, vested to it in the Agreement, to close the Transaction; (b) the Transaction is closed pursuant to clause 4.4 of the GTC.

6.7. 6.8. If the size of the Client's Order exceeds the maximum size as specified in the Condition Tables (e.g. a maximum Order value in Lots), the Company is entitled to request the Client to meet additional requirements as well as offer special terms for the Transaction. The Company shall notify the Client about such a fact directly in the moment the Order is placed by the Client. The Client may accept the offered conditions solely at his/her own discretion.

Variable Spread

6.9. For some of the Financial Instruments the Company applies a principle of quoting prices with the use of variable Spread which reflects the prevailing market conditions and volatility of Underlying Instruments' prices.

6.10. For the Financial Instruments with variable Spread, the Spread changes constantly, as it reflects the

prevailing market conditions, liquidity of the Financial Instruments' market and liquidity of the Underlying Instruments' market.

Market Execution Prices

6.11. For Financial Instruments with market execution, prices shown in the Trading Account should be deemed to be of an indicative character only and it is not guaranteed that the Client will deal at the quotation shown. The price of the executed Transaction shall be visible in the Trading Account.

6.12. Some of the offers, orders, prices or transactions coming from or performed by partners, information agencies, relevant markets or data vendors based on which the Financial Instrument's price with market execution was determined, may be cancelled or withdrawn for reasons being beyond the Company's control. In such a case, the Company shall have the right to withdraw from the respective Transaction on that Financial Instrument concluded by the Client. In such a situation, declaration of withdrawal will be documented and presented to the Client within two days after withdrawal or cancellation of an order, offer or transaction. The Company will bear no responsibility for damages caused by situations described herein.

This results from limits on the quantity of data processed by the Trading Platform in a particular unit of time. The Company makes every effort to ensure that the charts reflect as accurately as possible the prices at which Orders are executed. 7.31. The Company is not liable for any consequences, including losses, resulting from the establishment,

failure to establish, or removal of an emergency lock, if they did not occur through our fault. You may lift the emergency lock at any time. When the Client opens a position or places an Order, the Company shall debit the amount of the Margin payable in accordance with Condition Tables.

8.8. A Transaction Order shall be accepted and executed only if the Trading Account shows that the Client has Free Margin on a relevant Account to establish the Margin, for the offered liquidity level, and bear any additional costs of the Transaction. If the funds are insufficient to execute the Transaction, the Order may be rejected and deemed void partially or in whole, subject to the Orders' Execution Policy.

In such a situation, the Company shall close the CFD Transactions (CFD, Stock CFD, ETF CFD) at a current market price in accordance with market regulations of the Underlying Exchange and taking into account the liquidity of the Underlying Instrument.

9.3. A position on a CFD Account shall be closed by executing a Closing Position. The result on the Transaction on CFD shall be visible on the Trading Account. The result calculated on the relevant Client's Account shall be settled in the moment the position is closed. In the effect of settlement of all Transactions' result the Balance on the Trading Account does not fall below zero.

9.4. In case of Financial Counterparty, the Company calculates results in the following way: (a) Financial Counterparty's unrealized loss is settled by the Company in real time by adjusting the Free Margin on the Financial Counterparty's Account; (b) The Financial Counterparty's unrealized profit will be settled if the unrealized profit on all currently opened Positions exceeds EUR 500.000. If at the end of the day the unrealized profit exceeds EUR 500.000 then the Company will roll over the Financial Counterparty's Open Positions by closing all the Financial Counterparty's Positions, transfer the unrealized profit on the Financial Counterparty's Account and reopen of the closed Position at the closing prices.

The Company may use Swap points to calculate the dividend as described below. The Company usually updates Swap Points/Overnight Financing rates once a week. However, in the event of significant changes of interest rates for deposits and loans on the Interbank Market, the Company reserves the right to change the Condition Tables more frequently. The calculated Swap Points/Overnight Financing value shall be reflected on the Client's Trading Account. In the case of a Stock CFD, ETF CFD, a Reference Institution may refuse to place an order on the Underlying Exchange or withdraw an already placed order from the Underlying Exchange resulting from the Client Order on a given, Stock CFD or ETF CFD. This can occur for technical reasons that are independent and beyond the Company's control. In this case of a refusal to submit or a withdrawal of an order, the Company will cancel the Client's Order, if it is compliant with rules of trading on the Underlying Exchange and place the Order having the same parameters again. At the same time the Company shall make appropriate records on the Client's Account and inform the Client if such circumstances occur.

9.13. In some cases of limit Orders or stop Orders on Stock CFDs or ETF CFDs the Company may block the applicable Margin at the moment of placing the Order or the Instruction.

9.14. If the Underlying Instrument for the Stock CFD or the ETF CFD is being delisted from the Underlying Exchange, the Company shall have the right to close position opened on such an Stock CFD or ETF CFD on the last trading day, or after delisting of Underlying Instrument at the last available Market Price of the Underlying Instrument, and at the same time the Company shall inform the Client if such circumstances occur.

9.15. If the company whose market price is the entire or a part of the Underlying Instrument for the Stock CFD becomes insolvent, a petition for announcement of bankruptcy is filed against it or it is dissolved in any other manner, as of the day of closure of the position placed on the relevant Organised Market, the Company can close the Open Position for the given Stock CFD: if the Client has a long position – at the price that is the closest to zero. In such a case, if the company makes a payment for the stockholders, the amount equal to the final distribution amount shall be booked in the Client's Trading Account; if the Client has a short position – at the price that is the closest to zero. In such a case, if the company makes a payment for the stockholders, the amount equal to the final distribution amount shall charge the Client's Trading Account.

9.16. When trading Stock CFDs or ETF CFDs, Clients acknowledge that trading in some Underlying Instruments may be temporarily suspended or put on hold. In such cases Clients may not be able to trade or place the Orders or the Instructions concerning such Stock CFDs or ETF CFDs and their Orders or Instructions may be cancelled.

9.17. In some cases, Underlying Instruments for Client's short position in Stock CFDs or ETF CFDs may be recalled by the lending counterparty. In such cases the Company will have to close Client's short position in Stock CFDs or ETF CFDs, in order to close the short position that the Company may itself have with any counterparty. Such cases may occur if the exchange short selling rules change or a financial authority applies special conditions for short selling, lending counterparty will withdraw the possibility of short selling on a given Underlying Instrument or given Underlying Instrument becomes hard to borrow due to low liquidity, high lending costs or due to other circumstances that are beyond the Company's control.

9.18. The Company shall not be liable for any damages and/or losses of the Client caused by situations described in clauses 9.12 - 9.17 further above. In such cases the Company shall proceed in accordance with the Orders' Execution Policy as to gain the best results for the Client.

9.19. The availability of a short sale on Stock CFDs or ETF CFDs results from factors independent of the Company and may change from day to day. The current status of a short sale for a given Financial Instrument is published on the Company's Website.

9.20. In case the Client takes a short position on part of Stock CFDs or ETF CFDs, the Company shall offset such position with a corresponding short sale of the Underlying Instrument. Such Transactions may generate additional borrowing costs for a Client related with borrowing of the Underlying Instrument from a lender. The amount of this related cost is beyond the control of the Company.

9.21. The aforementioned costs shall be collected from a Client at the end of Trading Day and shown in Trading Account as Swap Points/Overnight Financing and may significantly influence the costs charged for a short position on Stock CFDs or ETF CFDs. The cost is taken into account when calculating the Swap Points/Overnight Financing value of the Financial Instrument.

9.22. The cost will be indicated in the Condition Tables; however, it may be changed with immediate effect depending on the borrowing costs of the Underlying Instrument.

10. Organised Market Instruments (OMI)

10.1. Clients' OMI's are inventoried in the Trading Account. OMI listed in the EU markets (excluding Poland), Norway, Switzerland, Great Britain and the USA are kept in an omnibus account maintained for the Company by a Custodian. The Company shall be responsible for the selection of a Custodian pursuant to Applicable Law and shall demonstrate due diligence in the selection thereof. XTB S.A. is the Custodian of XTB Ltd and the holder of the omnibus account.

10.2. The Client is the beneficial owner towards the OMI registered in said omnibus account receiving the economic benefits of those. Amount and value of Client's OMI is indicated in the Trading Account. The Company makes every effort to ensure that the information regarding the type and number of OMI is reliable, accurate and in line with the actual status. Such a manner of bookkeeping of your OMI as well as regular reconciliation between Company's records and records of a Custodian is intended to demonstrate your rights to Financial Instruments. Also, owing to this, Client's OMI shall be excluded from the Company's bankruptcy estate, as well as from a Custodian's bankruptcy estate.

10.3. The Client's rights related to OMI may be subject to other laws than the laws of the place of residence of an individual client or registered office of a corporate client. For instance, the laws of the country of issuance of OMI may affect the client's rights. Therefore, your rights could be different from what you would expect under your local laws.

10.4. Use of services of a Custodian for the purposes of maintaining omnibus accounts for the purpose of bookkeeping of OMI may result in certain risks identified by XTB.

These are related to:

- a) bankruptcy of a Custodian or third party; this may result in the inability to separate XTB and clients' OMI from the bankrupt's estate and, as a consequence, may involve loss of protection against a Custodian's or the third party's creditors,
- b) bankruptcy of a Custodian or a third party in the event that the Client's OMI are kept in the manner identified in clause 10.6 (this may reduce the value of guaranteed funds due to legal regulations introducing limits which identify the maximum value of such entity's resources of Clients in the event of declaration of its bankruptcy). The value of guaranteed resources may be limited, pursuant to Applicable Law, to the pro rata share of the value of OMI belonging to particular Clients in the value of all OMI registered in a given omnibus account.
- c) maintaining the continuity of operation of a Custodian or sub-custodian

10.5. Clients' OMI shall be inventoried and kept separately from Company own assets and from the Custodian own assets. If, the Company are unable to satisfy this requirement, the Company shall immediately

notify the Clients thereof and the Company will take immediate actions to rectify the issue.

10.6. The Company makes entries to the Trading Account in accordance with the Applicable Regulations, in particular on the basis of the evidence of records specified by a Central Securities Depository. For OMI kept on an omnibus account credits and debits related to shares shall be performed by a Custodian for and on behalf of the Company. The Company shall then make respective entries in the Clients' Trading Accounts. Subject to Applicable Law, you shall be entitled to demand specific benefits, payments or other performances directly from the Company and not from a Custodian. The Company shall provide the below services in relation to OMI trading:

- a) block the funds and OMI,
- b) submit orders and instructions on the relevant market directly or via an Executing Broker,
- c) submit statements of intent or knowledge towards third parties, including in particular entities authorised to execute orders connected with a Client's Orders and other Instructions
- d) accept the provisions of deeds of association or other statutory and company documents,
- e) execute any other necessary legal and actual actions, in accordance with Applicable Law, necessary for the provision of the services described in this Agreement.

10.7. The Company shall only execute the actual and legal actions identified in the clause above based on correct and valid Instructions and Orders you submit to us, in accordance with these General Terms and Conditions and Applicable Law. The Company may charge additional commission and fees for execution of the actions identified in clause 6 in accordance with the Table of fees and Commissions.

10.8. The Company shall not be liable for non-performance or incorrect performance of the actions identified in clause 6, unless these are a consequence of circumstances for which the Company shall be liable on the basis of generally applicable law.

CORPORATE ACTIONS

10.9. If you hold an OMI, it is possible that you will participate in corporate actions carried out by the issuers of these OMI (e.g. you may receive a dividend).

10.10. The Company informs about future OMIs corporate actions that are in our offer, in accordance with the applicable law. This information is published on the XTB Website. In the "Investments" section – it can be found in the "Account and Fees" section, in the "Instrument Specifications" subsection, then "Check Documents" in the document entitled "Information on Events Significant from the Shareholders' Point of View (SRD II)".

10.11. The Company doesn't guarantee timeliness, completeness or correctness of information regarding future corporate actions – the Company receives this information from third parties. The Company stipulate that terms and conditions of corporate actions (e.g. dates of merger, stock split or dividend payment) may change or be cancelled as a result of issuer's decision.

10.12. As a result of corporate actions new instruments may be allocated:

10.12.a. subscription rights (granted as a result of a subscription rights issue by the issuer),

10.12.b. shares, warrants or other Financial Instruments allocated as a result of:

- separation of a part of the issuer's assets into another company (spin off),
- acquisition of or merger with a company,
- payment of a non-monetary dividend, e.g. a scrip dividend,

10.13. As a result of a corporate action, Fractional Rights on OMI may be allocated to your account instead of OMI. This will be the case if, after the corporate action, the amount of Financial Instruments due to you

calculated as a result of applying the conversion ratio to the corporate action is not an integer. In particular, such situations may occur in the case of reverse split and spin-off.

10.14. As a result of the realization of a corporate action, a situation may arise where the amount of Financial Instruments due to you, calculated as a result of the application of the conversion ratio, will have to be rounded to the minimum position size determined for a given Financial Instrument. If the Company does not allow the acquisition of Fractional Rights for a given Financial Instrument - the minimum position size will be equal to 1 unit. If the Company allows the acquisition of Fractional Rights for a given Financial Instrument - the minimum position size will result from the precision of rounding of a given Fractional Right, and this parameter will be given in the Specification Table. In such a situation, the Company will allocate OMI or Fractional Rights to your account and then sell the merge deficiencies (i.e. the non-allotted units of the Financial Instruments) to you and pay out the cash equivalent.

10.15. If execution of a given corporate action involves cancellation of active orders on the market, the Company will also cancel all active orders on that OMI.

10.16. Upon the Client's request, the Company may issue documents certifying the Client's right towards OMI kept in the Trading Account (in particular, certificate of deposit). Issuance of such documents may be subject to respective commissions and fees charged by us, as defined in the Table of Fees and Commissions, justified by the nature of the operation.

Voting rights

10.17. XTB is the only entity entitled to exercise voting on behalf of its Clients. XTB, however, will not exercise such a right unless it receives express voting instructions from Clients under the conditions set out in below clauses.

10.18. Exercise of voting rights takes place in such a way that XTB forwards voting instructions received from Clients to the Custodian, and the Custodian or a designated Sub-custodian (financial institution) casts a vote according to the received voting instruction, without the need for physical or electronic participation of an XTB representative in the General Meeting of shareholders (proxy voting). Therefore, the Company will be able to exercise right to vote if, in relation to a given General Meeting, the issuer allows voting by means of electronic communication and transferring the vote by proxy (custodian or sub-custodian).

10.19. If you are owner of a share, you can provide voting instructions electronically at cs@xtb.com at least 16 days before the planned date of the General Meeting of shareholders of the company you hold a share.

10.20. Your instruction must refer to each resolution covered by the planned voting agenda made available by the issuer (indicating the direction of voting – for/against/abstain).

10.21. The Company will submit your voting instructions to the issuer of the real share by means of electronic communication and transferring the vote by proxy.

10.22. When giving us a voting instruction, you must have sufficient funds in Trading Account to cover fee for the voting rights service due to XTB in accordance with Fees and Condition Tables. In absence of required funds, the Company will not proceed with the execution of the instructions. Service fee will be charged on date of submitting voting instructions to Custodian.

11.3. The Company may, with immediate effect, suspend provision of the services, in whole or in a part, concerning a specific market or a specific OMI in cases where the provision has become impossible due to circumstances for which the Company is not responsible (e.g. in the event of bankruptcy or liquidation of the Broker, Custodian, Market Operator or Clearing House, or in the event of Force Majeure). In any case, the service shall be suspended for the duration of the impediment preventing the service. If such impediment is of a permanent nature, the Company's obligation to provide the service shall expire in its entirety. The provisions of the service may also be suspended or discontinued in the event of termination of the agreement with the Broker, Custodian, Market Operator or Clearing House. In such a situation, the Company will be obliged to inform about the period of suspension or termination of the service provision well in advance, taking into account the provisions of the terminated agreement with the entities indicated in the preceding sentence.

11.4. The Company shall make efforts to notify Clients in advance of the limitations enumerated in clause 11.3.

11.5. The amounts of commissions and fees identified in the Tables of Fees and Commissions may be periodically changed in accordance with these General Terms and Conditions. There may be other costs and taxes related to provision of services in the particular markets, which shall be charged to the Client and payable via XTB.

11.6. Upon Client's request, the Company shall furnish reasonable general information concerning the rights under the particular OMI, regulations and customs applicable on a given market, as well as the rules for inventory of your assets and principles governing the keeping of your assets by a Custodian. The Company shall obtain such information from sources the Company consider reliable. However, the Company shall not be liable for any errors or inaccuracies in such information, if these result from any circumstances the Company is not responsible for.

11.7. If, under the Applicable Law, performance of any rights or obligations, or of any other necessary actions requires furnishing of the Client's personal data or information regarding the Client, constituting a business secret of a Custodian, Executing Broker, Market Operator, Securities Depository, data seller conducting distribution of market information or other third-party entities, XTB shall furnish such information. By signing this Agreement you give your consent thereto.

11.8. The Company shall make respective entries in your Trading Account based on certifying documents or information obtained from the relevant Securities Depository, Market Operator, a Custodian or an Executing Broker.

11.9. Any and all Transactions on OMIs shall be reconciled in accordance with the Applicable Law and customs followed on a given market by the relevant Securities Depository, Market Operators or the Company acting as Systematic Internaliser.

11.10. The Company shall not be liable for any delays in delivery of the information referred to in clause 11.8. caused by the Custodian or an Executing Broker, if the delay is caused by circumstances for which the Company shall not be liable on the basis of generally applicable law.

11.11. Transactions executed on the basis of your Orders are settled according to a standard settlement cycle on a Regulated Market on which they were concluded, subject to time differences resulting from differences in time zones and company's working hours. A standard settlement cycle on Regulated Markets in the EU and Great Britain is two business days, for the US it's one business day.

11.12. Transactions in the case of Financial Instruments categorised as OMI which are recorded on omnibus account shall be settled using the services of a custodian responsible for holding Financial Instruments purchased by the Company for the Clients' account or a third-party institution (so called sub-custodian) appointed by a custodian.

11.13. The Company shall not be liable for any losses resulting from untimely settlement of concluded Transactions, Instructions or Orders if the settlement delay results from reasons the Company is not responsible for. After elimination of the reasons for delay, the Company shall undertake settlement of concluded Transactions in due time.

11.14. If the Company executed your Order or Instruction on more favourable terms than the terms identified in the Order, the excess shall be credited to your Account.

11.15. In the event of a purchase of a share the Company shall debit your Trading Account with an amount equivalent to your liabilities arising from the Transaction. This shall be done however no sooner than upon receipt by us of the Transaction confirmation from the Market Operator, an Executing Broker or a Custodian and in some cases after settlement by a relevant Securities Depository. The amount shall be expressed in the Underlying Currency and calculated at the Company's Exchange Rate.

11.16. If you order sale of OMI, the Company shall block the OMI concerned in the Trading Account.

11.17. In the case of an OMI sale order the Company shall credit your Trading Account with the amount representing the equivalent of the amounts due to you under the Transaction, less applicable fees, commissions and charges. However, this shall be done no earlier than at the time the Company receive confirmation of the share sale Transaction from the Market Operator or Broker and in some cases after settlement by the relevant Securities Depository. The amount due to you shall be expressed in the Underlying Currency and calculated at the Company's Exchange Rate.

11.18. An Order shall include in particular:

- a) first name, surname (name and company name) and number of the Client's Trading Account,
- b) identification of the person submitting the Order,
- c) date and time of Order submission,
- d) type of OMI covered by the Order, number or value,
- e) quantity or value of share,
- f) market on which the Order ought to be executed,
- g) identification of the Order object (purchase or sale of share),

- i) terms of Order execution, if any,
- j) other necessary parameters in accordance with Applicable Law.

11.19. In the Specifications Table, the Company may identify the maximum and minimum value, volume or size of Orders, Instructions or Transactions. The Company shall not accept or shall cancel and identify as invalid any Orders or Instructions of the Client that exceed or would result in exceeding the values, volumes or sizes referred to in this clause.

11.20. The Company may not exercise the Client's Order if:

- a) the authorities, Market Operators, Securities Depositories, Executing Broker or Custodian impose limitations in accordance with Applicable Law,
- b) the Trading Account is blocked upon the Client's request,
- c) OMI are blocked based on other agreements concluded by the Client,
- d) XTB does not operate on the given market or with respect to the given financial instrument,
- e) the Order for a given OMI is not accepted by the Broker or Market Operator,
- f) the Client failed to identify the market on which the Order is to be executed,
- g) execution of the Order involves violation of Applicable Law,
- h) the Free Funds level is insufficient to execute the Order.

In the cases referred to in clause 11.20 b)-g), you shall be immediately notified by us.

11.21. The Order may contain certain additional conditions concerning conclusion of the Transaction, if such conditions are compliant with Applicable Law and the General Terms and Conditions.

11.22. If the Order does not define or if it defines the moment of execution incorrectly, it may be executed during the next available session.

11.23. The Company may request submission of additional documents and information. The Company shall do so if such a need arises in accordance with Applicable Law and, in particular, if such information and documents are required by a Securities Depository, Market Operator, a Custodian or an Executing Broker. The Company may require you to furnish the currency exchange permission or a similar document, if required pursuant to Applicable Law.

11.24. If the Order or Instruction cannot be accepted or executed in accordance with these General Terms and Conditions, the Company shall immediately notify you of that fact.

11.25. The Company shall furnish the information referred to in clauses 11.21, 11.24 and 11.25 to Clients via the Trading Platform or via email communication.

11.26. The Company shall not be held liable in the event that you have not received the information referred to in clauses 11.20, 11.23 and 11.24, if the Company were unable to contact you due to reasons beyond our control.

11.27. If the Order covers OMI admitted to trading on several markets and the Client's Order does not specify the market on which the Order is to be executed, the Company shall execute the Order using Systematic Internaliser model or on the market which allows achieving the best results for Client, in particular in terms of the price and costs of the concluded Transaction, Order size, time and likelihood of concluding the Transaction, as well as the time and likelihood of clearing the Transaction. In the case of shares for which, according to Condition Tables, trading takes place between 7:30 a.m. and 10:00 p.m.: (i) All pending orders (limit and stop) and (ii) market orders placed between 7:30 a.m. and 9:00 a.m., 5:30 p.m. and 10:00 p.m., 10:00 p.m. and 7:30 a.m. are directed and executed exclusively on the Tradegate exchange, regardless of their listing on other markets. Time zone is UTC+2 and UTC+1.

11.28. In the situations referred to in clause 11.27, the Company shall inform you in the Transaction confirmation of the place where the Order was executed.

11.29. The Company shall maintain and furnish the Clients via the Trading Platform with a list of markets on which Orders to buy or sell Financial Instruments are executed.

11.30. The funds or Financial Instruments expected to cover the Order or Instruction shall be blocked in the Trading Account subject to Applicable Law. The Company shall also block the funds or Financial Instruments if required by applicable law.

11.31. If you submit Orders to buy Financial Instruments, you must have in the Trading Account the amount of funds sufficient to cover the value of the Order, commissions or other fees and charges applicable on a given market.

11.32. An Order to sell Financial Instruments or other property rights may be issued only with respect to Financial Instruments or rights that are available for sale. In the event that more than one order is placed for the same balance, the sum of the execution volume of all orders may not exceed the available amount of Financial Instruments or property rights.

11.33. Before execution of the order, the Company shall verify that you have sufficient funds or assets. If the Order is not fully covered with the funds available in the Client's Trading Account, the Company may not execute the Client's Order and may cancel it in whole or in part.

11.34. A buy order is executed from Free Margin in the Client's Trading Account, provided that it is sufficient to execute the order.

11.35. During periods of increased market volatility, execution price of an order may exceed price of the OMI or Fractional Shares/ETFs, ETCs, ETNs at the time of its placement. Therefore, when Client places an order to buy OMI or Fractional Shares/ETFs, ETCs, ETNs indicating value of order, and value of order exceeds: 95% of value of Free Margin for orders placed outside continuous trading phase or 98% of value of Free Margin in case of orders placed during continuous trading phase, conversion of order value into the share quantity will be preceded by a reduction of the value indicated in order to:

- 95% of Free Margin for orders placed outside the continuous trading phase
- 98% of Free Margin for orders placed during the continuous trading phase.

This mechanism is aimed at reducing probability of buying share for an amount exceeding value indicated in order, and consequently occurrence of a negative balance in Client's Trading Account.

11.36. As a result of placing a market order to buy OMI and Fractional Shares/ETFs, ETCs, ETNs without price limit, it is possible that its execution will exceed the value of the margin you have. In such a situation, the Company may debit your Account as a result of the execution of such an order. If you do not pay the debt immediately, the Company will call on you to pay it within 3 months. If, despite the call, you do not settle the debt on time, the Company can sell your OMI, in number that will cover resulting liability, starting with the Open Position on OMI and FractionalShares/ETFs, ETCs, ETNs , which has the lowest investment result. This is done until the negative balance on the Cash Account is liquidated.

11.37. If you have any unsettled receivables from Transactions concluded in the Trading Account, you may use them in order to execute new Transactions under the terms of the Applicable Law.

11.38. The maximum validity term of the Client's Order may not be longer than the maximum period identified pursuant to Applicable Law on a given market. However, the Company may define the different maximum validity term for Orders for the particular markets in the Condition Tables.

11.39. Orders shall be executed in accordance with the sequence of submission thereof, unless the Order itself stipulates otherwise.

11.40. Confirmation of Order receipt that the Company issue does not mean that the Order has been executed on the market. The Company shall not be liable for rejection of the Order if it resulted from circumstances that the Company are not liable for pursuant to generally applicable law.

11.41. The Client's Order is invalid if:

- a) pursuant to Applicable Law, it is considered invalid or should be invalid,
- b) it has been rejected or refused by the Broker or Market Operator,
- c) pursuant to the terms governing acceptance of Orders on a given market – the Client's Order, as inconsistent with such terms, cannot be submitted for execution,
- d) the Order is submitted outside the timeframe for Order receipt during a session (unless provided otherwise).

11.42. The Company may execute an Instruction to cancel or modify the Order, if the Order has not been executed yet. If the Order has been executed in part, then the Instruction to cancel or modify the Order may only be executed with regard to the unexecuted part of the Order.

11.43. In particular, the Instruction to cancel or modify the Order may not be executed if it cannot be accepted pursuant to Applicable Law of a given market or if execution of such Instruction is impossible.

11.44. If the Client's Instruction to cancel or modify the Order is not executed, the Company shall not be liable for it. However, the Company shall be obliged to make efforts to execute the Instruction taking into account the Client's best interest. The Company shall reserve the right not to accept, to cancel and declare invalidity of the Orders or Instructions referred to in clauses 11.40 – 11.41.

11.45. The Company may suspend acceptance of Orders from Clients for the time during which our access to a given market is suspended or if an Executing Broker or a Custodian has suspended acceptance or orders or dispositions due to reasons the Company is not responsible for.

11.46. The Company may also introduce temporary limitations in acceptance of Instructions if it is necessary to carry out technical maintenance of the IT infrastructure used by us for acceptance or registration of Clients' Instructions.

11.47. The Company shall not be liable for any losses resulting from suspension of an Order or Instruction acceptance, referred to in clauses 11.44 -11.45 unless the suspension results from circumstances the Company are liable for pursuant to generally applicable law.

11.48. In the event of a delay in Transaction settlement by a Securities Depository or Custodian for reasons the Company are not responsible for, the Company shall be entitled to withhold payment of the unsettled amounts due to the Client until settlement of these Transactions.

11.49. Unless provided otherwise, Open Positions are closed pursuant to the FIFO (first in first out) principle, which means that Open Positions are closed according to the time they were opened, starting with the one opened earliest. By default, when placing an order to sell Financial Instruments without assigning it to a specific position, the FIFO principle will be applied. Client has an option to specify position to be closed by placing an order type available for that position. In this case, the FIFO principle does not apply, and the position specified by the client is closed, regardless of when it was opened.

11.50. The transfer of OMI from another investment company to the Client's investment account in the Company is performed on the basis of an Order and in accordance with Applicable Regulations. In the event of a transfer of an OMI to the Client's investment account in the Company, the Company require that documents be attached to the Order in a form specified by us, which indicate the basis for the transfer of the OMI or funds. Until the Client provides all the documents required by us, the Company have the right to withhold the execution of the Client's Order. The Company only perform transfers of OMI offered by the Company to Clients as part of a valid offer.

11.51. The Company shall transfer OMI into another Client's or other person investment account based on a Disposition and in accordance with Applicable Law. In the event of any change of the ownership right, the

Company require that the documents, in the form the Company specify, indicating the basis for the transfer of the OMI or funds be attached to the Disposition. The Company may withhold execution of your Disposition until you have provided us with all the documents the Company require.

11.52. The Company may also refuse transfer of OMI into another account if the funds deposited on the Client's Trading Account are insufficient to fully satisfy the liabilities towards the Company.

11.53. The Company shall transfer the Client's OMI or funds on which a limited property right has been established or whose negotiability is limited only subject to maintaining such rights or limitations. A situation where the Applicable Law or the legal relationship serving as the basis for establishment of such limited property right or limitation of the negotiability of the Financial Instruments provides otherwise, shall be an exception to the above rule.

11.54. The Company shall apply the provisions of clauses 11.50 – 11.51 respectively to transfers of OMI or funds among the Client's Trading Accounts.

11.55. Subject to the provisions of clause 11.52 the Company shall perform on your Trading Account activities related to establishment and execution of collaterals for liabilities on your OMI or funds.

11.56. The Company shall perform the activities referred to in clause 11.5. based on a Disposition, agreement on establishment of a collateral and a document specifying the amount of liability.

11.57. The Company shall remove the blockade of the Client's OMI or financial funds established for secured liabilities in connection with expiry of the collateral or its fulfilment. Removal of the blockade on the Client's OMI or financial funds shall take place when the conditions provided for in the agreement on establishment of the collateral are fulfilled or based on the creditor's statement.

11.58. If based on the documents concerning the liability for which the collateral is to be established or based on the agreement on establishment of the collateral it can be concluded that they are not compliant with Applicable Law, the Company shall refuse to undertake actions related to establishment of a collateral for the liabilities. The Company will notify you of refusal by electronic means and provide the reasons for our decision. Prior to this, the Company shall enable you to provide clarifications.

11.59. The Company may also refuse to perform the actions referred to in clause 11.52 with respect to a given type of OMI if establishment of the collateral would be in conflict with the Applicable Law.

11.60. The Company do not execute redemptions or conversions of OMI or Fractional Shares/ETFs, ETCs, ETNs involving the exchange of their units for physical commodities.

General Provisions

11.61. 24/5 Trading is a voluntary additional service enabling the placing and execution of Orders concerning selected Financial Instruments constituting shares of companies listed on the US markets outside the standard trading hours on the market relevant to a given Financial Instrument. 11.62. 24/5 trading allows placing and executing Orders during the session before the opening of the market specific to a given Financial Instrument (pre-market), the session after the closing of the market specific to a given Financial Instrument (after-hours), and other sessions indicated by XTB.

11.63. 24/5 trading is not a separate investment service provided by XTB, but an additional functionality that allows placing and executing Orders outside of standard trading hours.

11.64. Using the 24/5 Trading service requires prior access to the service via the Trading Platform and acceptance of the statements, information and warnings required by XTB regarding the rules of operation and risks associated with this service.

11.65. Joining the 24/5 Trading service is voluntary and is not a condition for using other services provided by

XTB.

11.66. The 24/5 Trading service is available only for the Financial Instruments indicated by XTB in the Condition Tables. The list of Financial Instruments covered by the service is subject to change.

11.67. Information concerning:

(i) Financial Instruments covered by the 24/5 Trading service,

(ii) hours of service availability,

(iii) available types of Orders,

(iv) the rules and places of execution of Orders, published on the XTB Website, in the Condition Tables, Order Execution Policy or via the Trading Platform.

Detailed rules for the operation of the 24/5 Trading service

11.68. As part of the 24/5 Trading service, the availability of individual Financial Instruments, Order types, Order execution rules and Order execution venues may differ from the rules applicable during standard trading hours.

11.69. The availability hours of the 24/5 Trading service may vary depending on the Financial Instrument, the day of the week, stock exchange holidays, the place of execution of Orders or other circumstances affecting the organization of trading.

11.70. In the context of 24/5 Trading, the trading day ends at 8:00 pm Eastern Time (ET) (the "Daily Close Time"). Due to time changes (summer/winter), 20:00 ET usually corresponds to 02:00 or 03:00 Polish time (CET/CEST) on the next calendar day. All Trades entered after 20:00 ET are automatically credited to the next trading day.

11.71. The Daily Close Time marks the boundary between the trade dates. Executed orders:

- before 20:00 ET – have the transaction date of a given trading day,
- after 20:00 ET – have the transaction date of the next trading day.

11.72. The rights arising from Corporate Actions (including, m.in, the right to dividend, the right to pre-emption) are determined based on the date of the transaction determined in accordance with the above rules. Transactions concluded after 20:00 ET on the trading day preceding the date of determination of rights (Ex-Date) are considered to have been concluded on the Ex-Date. A client purchasing a Financial Instrument after 20:00 ET on the day before the Ex-Date does not acquire the rights to a given Corporate Action (e.g. dividend).

11.73. The 24/5 Trading service does not imply a guarantee of the possibility of concluding Transactions 24 hours a day or 5 days a week for each Financial Instrument.

11.74. Orders placed under the 24/5 Trading service are executed in accordance with the Order Execution Policy for OMIs and Fractional Shares, ETFs, ETNs, ETCs. We do not guarantee that an Order placed under this service will be executed, executed in full, executed immediately or at a specified price.

11.75. Activating the 24/5 trading service means that the valuation of the assets in the account will also be carried out during extended trading hours, using the prices applicable at that time.

- d) number of Fractional Shares/ETFs being the subject of the Order or their requested value,

This means the creation of your fiduciary right to a fraction of the OMI in the number specified in the Order and the debiting to your Trading Account of an amount equivalent to your obligations under the Transaction. The date on which your fiduciary right arises is (i) the date on which you execute a transaction to buy Fractional Shares/ETFs, ETCs, ETNs (when you use an OMI unit that you already own) or (ii) the date on which you settle a transaction to buy a total OMI on the regulated market (when, by executing orders to buy Fractional shares/ETFs, ETCs, ETNs you place an order to buy a total OMI unit on the regulated market), which is no later than the second business day following the conclusion of the transaction on the regulated market.

If you acquire such a number of Fractional Shares/ETFs, ETCs, ETNs that as a consequence the sum of the Fractional Rights recorded in your account relating to a given financial Instrument exceeds its whole number, your right to the Fractional Rights equal to the whole number will expire no later than on the second business day after the transaction is concluded and such (whole) OMI instrument will be recorded on your Trading Account. In this case, you shall have the right to acquire the OMI instrument and hold it directly. Analogously, if you hold a (whole) OMI instrument registered in your Trading Account, you can sell a fraction of such OMI; in such a case, no later than on the second business day after the transaction is concluded, the whole OMI is not registered in your Trading Account, while your right to the Fractional Share/ETF, ETCs, ETNs is registered there. The final settlement date depends on when the Order to buy or sell Fractional Rights is submitted. If you submit an order in the last seconds of a Trading Day on a particular Organised Market, the Company may not be able to place an order to buy or sell the relevant unit of OMI before the end of the Trading Day. Such an order shall be submitted on the next business day after commencement of the trading session. If you submit an order and trading on the relevant Organised Market is suspended, the Company shall create an order for a single unit of OMI as soon as continuous trading on the Regulated Market resumes.

Subject to the other provisions of the Agreement, such a price may be considered as erroneous, and each party may withdraw from the Transaction or the parties may adjust the terms of executed Transactions as described below. This may be done only in the following situations: at the moment of conclusion of the Transaction the Price of the Financial Instrument offered by us (other than a CFD or ETF CFD) differs from the price of the Underlying Instrument quoted at the moment of conclusion of the Transaction by at least two Reference Institutions and in the case of Cash Instruments by at least one Reference Institution. The price must differ by more than two Spreads for the first liquidity level available in the Company's order book for the particular Financial Instrument, and by more than three Spreads for the next liquidity levels; or an error has occurred on the Trading Platform and at the moment of conclusion of the Transaction the Price of the CFD or ETF CFD offered by the Company, made available to the Client, differs significantly from the execution price of the order placed by the Company on the Organised Market, according to the assumptions of the agency model.

In case of rejection of the offer to correct the Transaction or a lack of timely response by any party, each of the parties is entitled to withdraw from the Transaction in accordance with clause 18.4.

18.6. As a result of withdrawal from the Transaction in accordance with clause 18.4, the Company shall adjust the respective Balance and other registers within given Accounts and record respectively the Balance or other records according to the state existing prior to conclusion by the Client of the Transaction on the erroneous price. If the withdrawal applies to the Transaction closing the Open Position, the withdrawal causes restoring of the Open Position and the adjustment of the respective Balance and other registers within given Accounts to the state that would have existed if the position was never closed.

18.7. As a result of correction of the terms of the Transaction, the Company shall adjust the respective Balance and other registers to the amount and state which would have been recorded on the given Account if the Transaction had been concluded on the market price. The market price shall be determined in the manner set forth in clause 18.4 of the GTC.

18.8.
